

Agriculture: Strawberry Pest Management Guidelines

Flowering to First Harvest

This year-round IPM program covers the major pests of strawberry fruit-production fields in California. Pest management activities for strawberry nurseries are discussed only as they impact pest problems in the field.

About Flowering to First Harvest

- [Mitigate pesticide effects\(/agriculture/strawberry/Pesticide-application-checklist/\)](#) on air and water quality.

Monitor for [spider mites and caterpillars\(/PMG/C734/m734lpinvert.html\)](#) (cutworms, armyworms).

- [Keep records\(/PMG/C734/strawberry-mitesurvey.pdf\)](#) (PDF), and manage as needed according to the Pest Management Guidelines.

Monitor [lygus bug\(/agriculture/strawberry/Lygus-Bug/\)](#) in Central Coast plantings and Southern California summer plantings.

- Survey [weed hosts\(/agriculture/strawberry/Lygus-Bug/#MONITORING\)](#).
- Consider calculating [degree-days\(/agriculture/strawberry/Lygus-Bug/#DEGDAY\)](#) to time egg hatch.

[Keep records\(/PMG/C734/strawberry-lygusurvey.pdf\)](#) (PDF) and manage as needed according to the Pest Management Guidelines.

Monitor for other [insects and mites\(/PMG/C734/m734epinvert.html\)](#) and flag locations with problems:

- Aphids
- Cyclamen mite
- Thrips
- Whiteflies

Look for [diseases\(/PMG/C734/m734fpdisease.html\)](#) and flag locations with problems:

- Angular leaf spot
- Anthracnose
- Common leaf spot
- Fusarium wilt
- Leaf blotch
- Phytophthora crown and root rot
- Red stele root rot
- Verticillium wilt

Manage [diseases\(/PMG/C734/m734hpdisease.html\)](#) as needed according to the Pest Management Guidelines.

- Botrytis fruit rot

- Powdery mildew

Look for [vertebrate pests\(/PMG/C734/m734lpvertsigns.html\)](/PMG/C734/m734lpvertsigns.html) and flag locations with problems:

- Deer
- Ground squirrels
- Moles
- Pocket gophers
- Voles

[Survey for weed emergence\(/PMG/C734/m734ocweedsurvey.html\)](/PMG/C734/m734ocweedsurvey.html); manage as needed according to the Pest Management Guidelines.

Consider monitoring salinity of irrigation water.

Monitor soil moisture and irrigate as needed.

Apply fertilizer as needed.
